August 3, 2007

To whom it may concern:

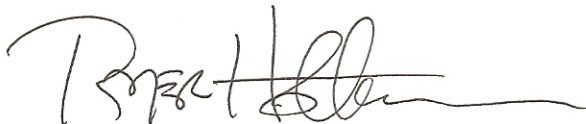

During the Summer of 2007, Daniella Birch worked full time in the creative department for Crosstown Traders, the catalog division of Charming Shoppes, Inc.

Her abilities were utilized in the imaging area where she was responsible for a variety of Adobe Photoshop work including silhouetting, cloning and compositing high resolution images and creating low resolution copies for placement.

Her skill level in Photoshop is very commendable and her work habits are stellar. She was highly productive in the work she produced for us during the summer. Our imaging department is responsible for a huge volume of work and her contribution has been significant.

It is my pleasure to highly recommend her to you, both as an employee and a person.

Sincerely,

Roger Hoffman
Imaging Manager,
Crosstown Traders, Inc.
